Bootcamp Objectives

Jump start your Project Management Career: Join Caltech's Springboard Training: PMI-PMP® and CAPM® Bootcamp, presented in partnership with the PMI Columbia River Basin Chapter (CRBC). This intensive program is tailored for project professionals at all levels, equipping you with the essential skills and insights needed to successfully lay a strong foundation for PMI's PMP® and CAPM® certifications.

As the only PMI® Premier Authorized Training Partner (ATP) in this area, Caltech CTME and CRBC are your learning partners. Our courses feature real-world scenarios and are taught by top practitioners rigorously vetted by PMI®.

Learning Objectives

PMI certifications validates your ability and demonstrates a level of expertise recognized across 40 countries. Certified project managers see, on average, a 16% boost in earning potential.

Benefit from official PMI content delivered by an expert instructor approved by PMI. Only ATPs like Caltech CTME provide the latest methods and tools you need to succeed.

You will learn how to:

- Master foundational project management principles
- Align projects with strategic business goals
- Deliver and evaluate project benefits and value
- Support and manage organizational change initiatives
- Establish effective project governance structures
- Ensure project compliance and adherence to standards
- Identify and engage key project stakeholders
- Build, empower, and support high-performing teams
- Plan, manage, and optimize project resources
- Execute, monitor, and close project phases effectively

With Caltech CTME as the PMI Premier Authorized Training Partner, access essential content and tools:

- PMI's official digital platform and locker
- Interactive course guides and materials
- Exam preparation questions and test bank
- Spotlight video explainers
- Knowledge checks and resources

Caltech Center for Technology & Management Education

Project Management
Institute.
Columbia River Basin

Participants

This bootcamp serves emerging project professionals and experienced project managers, product owners, analysts, developers, and team leads who are seeking PMP® or CAPM® certification from the Project Management Institute (PMI). Professionals in Energy, Natural Resources, Life Sciences, Technology, Education, and Agriculture sectors in Tri-Cities, Washington area benefit from project management skills. Enhance efficiency, sustainability, and innovation across industries to optimize processes, transform business models, and elevate technological applications, fostering leadership and development within the region.

Why CTME?

Leaders consistently choose Caltech's Center for Technology and Management Education (CTME) to innovate and execute specialized professional development successfully. As a **Premier Authorized Training Provider (ATP)** for PMI, Caltech CTME offers unparalleled expertise in project management education. You will develop new mindsets, technology skills, and leadership capacity to master the complex issues that challenge your organization today.

Instructors with real industry insight—Our PMI-approved instructors bring decades of real-world expertise in engineering, product management, manufacturing, executive accountability within technology-driven organizations and government agencies.

Achieve real impact in our on-demand classes with Caltech's action learning approach. Our module exercises, relevant cases, and structured reinforcement learning empowers you to apply new knowledge and thrive in the face of new challenges.

PMI ATP expertise—As a PMI Authorized Training Provider (ATP), learners benefit from exclusive access to official PMI content, test bank questions, the latest PMBOK (v7), and personalized assistance with certification applications, ensuring comprehensive preparation and success.

Group and Enterprise Learning—Caltech CTME partners with regional organizations, professional societies, corporate, and government clients to deliver customized professional and executive development programs.

About Caltech

Caltech is a world-renowned science and engineering institute that marshals some of the world's brightest minds and most innovative tools to address fundamental scientific questions and pressing societal challenges. Caltech prizes excellence and ambition. The contributions of Caltech's faculty and alumni have earned national and international recognition, including over 45 Nobel Prizes. The Institute manages the Jet Propulsion Laboratory (JPL) for NASA.

In accordance with Caltech policy, CTME does not discriminate against any person on the basis of race, color, sex or sexual orientation, gender identity, religion, age, national or ethnic origin, political beliefs, veteran status, or disability in admission to, access to, treatment in, or employment in its programs and activities.

Instructors

Nathaniel (Nate) Crews, PhD, PMP, CBAP, ACP, CSP, PRINCE2, SPC5, has over 40 years of experience as an application developer, systems integrator, project manager, program manager, PMO director, scrum master, and agile coach. He has managed over 30 projects, ranging from small projects to enterprise programs in aerospace, automotive, financial services, computer systems, software, and telecommunication. His specialties include feasibility assessment, cost estimation, project risk analysis, project planning and staffing, stakeholder analysis, and vendor management. He has worked with Alcatel Lucent, AT&T, Citibank, EMC, JP Morgan Chase, Lockheed Martin, Northrop Grumman, St. Joseph Hospital, Southern California Edison, and Toshiba.

Dr. Crews was selected as a Technology Management Fellow by the Moore School of Engineering at the University of Pennsylvania. He is a Stanford University Certified Project Manager and holds several project management and technology certifications including Agile Certified Professional, Certified Scrum Master, Certified Scrum Product Owner, Project Management Professional, Advanced Project Management Certification, and Certified Business Analyst Professional. Dr. Crews is a PMI-approved instructor for PMP Exam Prep and Disciplined Agile for Caltech CTME, a Premier Authorized Training Partner for PMI.

He holds an Executive Masters in technology management from the Wharton School of Business and Moore School of Engineering, an MBA with an emphasis in finance from Widener University and a bachelor of arts in mathematics/computer science from Clark University. He completed his PhD in management with an emphasis in information systems management.
